Venue:
Courtyard by Marriott
Zone-I, Arera Hills, Bhopal, M.P.

Bleeding and thrombosis are two biggest killers along with infections and cancers when we talk about the diseases which affect humans.

Basics of bleeding or thrombosis remain the same irrespective of the affected organ, and it is important to revisit them from time to time.

Moreover, there are tremendous advances in blood bank practices, diagnostic modalities, and management of these conditions.

Keeping this in mind, we have kept the theme of our conference as “**Vasocon**” Vascular Events in GI Tract and Liver... *Pick in time and treat them well!*

Our annual conference, which happens every year on our foundation day, is an endeavor to present a blend of basic sciences and latest developments in the form of practice guidelines.

This year, Big Update 2025 will be held on 10th and 11th May.

During these two days, we will have Lectures, panel discussions, symposia, debates, challenging cases, and quiz, This time we will have Video workshop instead of live cases – ensuring a more effective and fruitful learning experience, We have invited galaxy of speakers including Gastroenterologists, GI surgeons, Haematologists, Interventional Radiologists and Endoscopists from across the country

The weather in Bhopal during May is warm, but we have tried to make your stay cool and comfortable.

Looking forward to seeing you in this academic extravaganza.

Team Gastrocare is eager to welcome you to Bhopal.

Regards,
Dr. Sanjay Kumar
Organising Chairman
